The Works

All of our packages include nail trimming and filing, ear plucking and/or cleaning, anal gland expression, and teeth brushing.

Full Groom

This service includes a bath, full grooming, and a complete body haircut — covering the head, feet, pads, tail, privates, and every area of the coat. We follow the owner's exact specifications. This is the service used anytime a dog's hair is being taken down in length.

Trim and Tidy

This service includes a bath, the works, pads, and privates shaved, and a trim on the feet, rear end/tail, and face when appropriate. For example, we will trim the face on breeds like Yorkies or Shih Tzus, but not on breeds such as Huskies or Australian Shepherds. All our packages also include nails trimmed and filed, ears plucked and/or cleaned, anal glands expressed, and teeth brushed. This is our go-to package for dogs that don't need a full body clip — like Huskies, Collies, and other double-coated breeds — or for pups who just need a tidy touch-up between full grooms.

Bath and Brush

A bath, brush, and blowout. This service is perfect for dogs who do not need any haircut at all — such as Pitbulls, Boxers, Beagles, and other short-coated breeds — or for pups who just need to get clean without any cosmetic trimming.

We also do walk-in nail trims between 10am and 2pm!
